<i>Training Data</i>		
Total Participants		84,218
Total Training Hours		1,277,312
<i>Match Data</i>		
Total Value		\$3,725,646

(As of March 31, 2012)

### TxC2 Serves Up Access for Charity

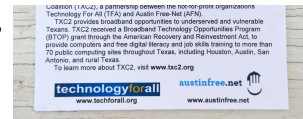

**TFA and LiveAir Networks offer free wifi, computer access to BP MS 150 bicyclists**

Part charity, part two-wheel road trip, the BP MS 150 is a favorite tradition amongst bicyclists and Texans alike. Thousands pump their way from Houston to Austin every year, with their first night spent in the Fayette County Fairgrounds in La Grange. This year, TFA's TxC2 project and LiveAir Networks' Internet cafe [was ready for them.](#)

Thanks to both organizations' commitment to connectivity, the TxC2 Internet Cafe was a

success. As riders poured in from a windy day, they were able to charge their phones, check the weather and update family and friends. The cafe was so successful, we were asked to return next year!

“This is just the first of many partnerships we are going to form to bring computers and internet access to the people of our communities,” said Libbey Scheible, Director of Programs & Operations for the Rural Texas and San Antonio office of TFA, based in Smithville.
